Every Name Index

ROOSEVELT County

1910
United States Census
Territory of New Mexico

Introduction

This edition covers only Roosevelt County, Territory of New Mexico, as enumerated in the 13th Census of the United States in the year 1910. This index is intended as an aid to researchers by listing surname, first, and middle names (where given), and the page and line where that name may be found in the microfilm record of the Census. It includes every member of the family, not just Head of Household.

The present plans are to complete each of the 26 counties of the Territory of New Mexico and compile that data into a computer database where it will be organized into separate County Indexes. Then, they will be combined into one comprehensive set of volumes indexing the entire Territory of New Mexico in the Census of 1910.

We attempted to use the spelling used by the Enumerators, even when we knew they were misspelled. However, we have also included an additional listing of the correct spelling of the Head of Household with a reference to the misspelled listing.

Three volunteer Indexers worked separately to decipher each name in this Index using photocopies of the microfilm. The First Reader undertook the challenging task of handwriting, line by line, his or her understanding of what the Enumerator had written in 1910. The Second Reader either agreed with the assessment of the First Reader or offered written alternatives. The Third Reader had the benefit of the previous work and could "vote" with either the First or the Second Reader or, in many cases, suggested a third alternative.
